

Press Release

New CFO Philipp E. Lederer strengthens the management board of the zvoove Group

The new CFO will further accelerate European expansion, develop new business models and will support the growth of the company

Wietmarschen-Lohne – Philipp E. Lederer was appointed Chief Financial Officer (CFO) of the zvoove Group on 1 February 2022. As CFO for the leading European software provider for the temporary staffing, facility management and event industries, 50-year-old Lederer will drive the company's growth both organically as well as via M&A and support the development of new, innovative business models.

He holds many years of experience in international investment banking and consulting, after working in management roles at global companies such as Morgan Stanley, McKinsey & Company and HSBC. As CFO, he has supported the expansion of fast-growing companies such as the delivery service foodpanda and the software provider Quentic. Apart from Berlin, he has also worked in Frankfurt, London and New York.

"I'm very excited about this great opportunity at zvoove. Our software is mission critical to our customers' success, which makes our product really important and valuable," explains the new CFO. "I'm also looking forward to getting to know the people behind the group and working with them to capitalize on the excellent growth opportunities within the European market."

"With Philipp, we have gained an accomplished professional with profound financial and strategic expertise," adds CEO Oliver Muhr. "In addition to his responsibilities as CFO, he'll also be supporting our product and strategy teams with the development of other innovative business models and will be responsible for our M&A program."

About zvoove: The zvoove Group develops and sells innovative software solutions for the temporary staffing, facility management and event industries. The company, which has more than 300 employees, was formed by the merger of LANDWEHR, rhb, prosoft, BackOffice and Levyi. It has offices in Germany, the Netherlands and Switzerland.
